OTHER PDCA RECOMMENDATIONS

A. It is recommended that exhibitor and breeder be defined as follows: “Where a herd is registered in the name of different member of a family, residing on one farm, and where the herd is registered in the name of different members of a family, residing on one farm, and where the herd is one unit, all entries may be considered as a single exhibitor.”

B. For an exhibitor to be eligible to show an animal, the title of ownership of the exhibitor shall show on the registration certificate and in the respective breed’s permanent herd book or registry at the time of the exhibition. The registration papers should be checked for this purpose. It is not considered necessary to have a requirement which states that an animal must be owned for a given number of days in advance of the show.

C. Substitutes within and out side of a class should be permitted.

D. Animals owned in partnership or syndicate may be shown in the name of the partnership or syndicate only; except that at time of entry a determination shall be made that such animals will be shown in the name of one partner or syndicate member and animals must be shown the same way in the group classes, including State Herd, as they are in the open single classes.

E. Definitions: Best Three Females - At any age all are to have been bred by and at least one be owned by exhibitor. Each exhibitor limited to one entry.

Best Three Junior Females - 3 females under 2 years of age, none of which have freshened. All must be bred & owned by exhibitor. 1 entry per exhibitor.

Senior Get of Sire - Group to consist of three (3) animals all sired by the same bull; either sex, but not more than two bulls, and at least one must be two years old or older. At least one must be bred and owned by the exhibitor, and each exhibitor is limited to one entry sired by the same bull. Produce of Dam - Group to consist of two animals, any age, either sex, the produce of one cow. The dam must be named. Animals need not both be owned by one exhibitor.

The Purebred Dairy Cattle Association - SHOW RING CODE OF ETHICS (Adopted by PDCA in March, 1970; revised March 1971 and Feb. 1977) the showing of registered dairy cattle is an important part of the promotion, merchandising, and breeding program of many breeders. Additionally, it is an important part of the program of The Purebred Dairy Cattle Association to stimulate and sustain interest in breeding registered dairy cattle. This relates to both spectators and exhibitors. In this connection, the PDCA believes that it is in the best interests of the breeder of registered dairy cattle to maintain a reputation of integrity and to present a wholesome and progressive image of their cattle in the show ring. It recognizes that there are certain practices in the proper care and management of dairy cattle, which are necessary in the course of moving

dairy cattle to and between shows that are advisable to keep them in a sound, healthy condition so that they might be presented in the show ring in a natural, normal appearance, and condition. Conversely, it recognizes certain practices in the cataloging, handling, and presentation of cattle in the show ring which are unacceptable.

The following practices or procedures are considered unacceptable and defined as being unethical in the showing of registered dairy cattle:

1. Misrepresenting the age and/or milking status of the animal for the class in which it is shown. In any female classes, animals may not be exhibited that are in milk due to an unnaturally induced lactation.
2. Balancing the udder by any means other than by leaving naturally produced milk in any or all quarters.
3. Setting the teats with a mechanical contrivance or with the use of a chemical preparation.
4. Treating or massaging any part of the animal's body, particularly the udder, internally or externally with an irritant, counter-irritant, or other substance to temporarily improve conformation or produce unnatural animation.
5. Minimizing the effects of crampiness by feeding or injecting drugs, depressants, or apply packs or using any artificial contrivance or therapeutic treatment except in normal exercise.
6. Blocking the nerves to the foot to prevent limping by injecting drugs.
7. Striking the animal to cause swelling in a depressed area.
8. Surgery of any kind preformed to change the natural contour or appearance of the animal's body, hide, or hair. Not included is the removal of warts, teats, or horns, clipping and dressing of hair and trimming of hooves.
9. Insertion of foreign material under the skin.
10. Changing the color of hair at any point, spot, or area on the animal's body.
11. The use of alcoholic beverages in the feed or administered as a drench.
12. Administration of a drug of any kind or description internally or externally prior to entering the show ring, except for treating a recognized disease or injury and for tranquilizing bulls that may otherwise be dangerous for females in heat. For the purpose of this Code, the term "drug" shall mean any substance, the sale, possession, or use of which, is controlled by license under Federal, state, or local laws or regulations, and any substance commonly used by the medical or veterinary professions which affect the circulatory, respiratory, or central nervous system of a cow.

13. Criticizing or interfering with the judge, show management, or other exhibitors while in the show ring or other conduct detrimental to the breed or show.

In Keeping with the basic philosophy of The Purebred Dairy Cattle Association, ethics are an individual responsibility of the owner of each animal shown. Violations of this code are subject to the disciplinary provisions of the appropriate dairy breed association and/or show management.
